IDENTIFIERS	African Americans; *American Chemical Society; Native Americans

ABSTRACT

The American Chemical Society (ACS), founded in 1876, is a not-for-profit organization that is recognized as a world leader in fostering scientific education and research and promoting public understanding of science. The ACS Committee on Minority Affairs has a mission to develop and implement programs to support minority involvement in the sciences. The ACS also sponsors a minority scholarship program and maintains a network of information for those interested in minority programs and activities. This network includes Internet information and a number of other resources listed in this guide, many of which are of interest to educators and students. The guide provides information or resources that will provide information in the following sections: (1) the ACS Home Page; (2) Minority Affairs Main Page; (3) ACS Committee on Minority Affairs; (4) the Minority Affairs Program; (5) ACS Scholars Program; (6) Minority Affairs Resource Information Home Page; (7) Historically Black Colleges and Universities (listing); (8) Tribally Controlled Colleges (listing); (9) Colleges and Universities with Predominantly Hispanic Populations (listing); (10) Organizations with Minority Affairs Programs in Science, A-M; (11) Organizations with Minority Affairs Programs in Science, N-Z; (12) Upcoming Conferences of Minority Advocacy Organizations; (13) Financial Aid Resources for Underrepresented Minorities in General; (14) Financial Aid Resources Specifically for African Americans; (15) Financial Aid Resources Specifically for Hispanic Americans; (16) Financial Aid Resources Specifically for Native Americans; (17) African American Members of the 105th United States Congress; (18) Hispanic Members of the 105th United States Congress; and (19) Native American Members of the 105th United States Congress. A World of Information

The American Chemical Society was founded in 1876 and is a not-for-profit organization. It is the world's largest scientific society and has a membership of over 151,000 chemists and chemical engineers. The American Chemical Society was chartered by a 1937 Act of the U.S. Congress. The Society is recognized as a world leader in fostering scientific education and research, and promoting public understanding of science.

To find information, use Search the ACS Web, or see What's New and the Event Calendars. To learn more about the American Chemical Society, see ACS at a Glance or view our Annual Report. To reach us, see Customer Service Contacts.

Minority Affairs

Membership Division | Public Outreach | ACSWeb | ChemCenter

This Minority Affairs site provides ACS members and other interested parties a directory of ACS information on minority activities, listings of minority institutions, listings of organizations that provide programs and activities for minorities, and financial aid resources.

- The Committee on Minority Affairs
  The Joint Board-Council committee on minority activities in the chemical sciences was created in 1993.
- About the Minority Affairs Program
  The mission of the minority affairs program is to conceive, develop, coordinate, and implement programs that are designed to encourage and support minority involvement in the chemical sciences. Current ACS Programs include the Scholars Program, a Mentoring Program, the Summer Internship Program, Programs at National and Regional Meetings, and a network of resource information.
- The ACS Scholars Program
  The American Chemical Society sponsors a Scholars Program for qualified applicants who want to enter the field of chemistry, biochemistry, chemical engineering, and students seeking a two-year degree in chemical technology. The program is designed to encourage African-American, Hispanic, American Indian, Alaskan Native students to pursue college degrees and careers in the chemical sciences. The goal of the scholarship program is to aid in building an awareness of the value and the rewards associated with careers in science and to assist students in acquiring the skills and credentials needed for success in these areas.
- Minority Affairs Network of Resource Information
  Minority Affairs provides ACS members and other interested parties a directory of minority programs and/or activities, including scholarships, fellowships, grants, summer programs, workshops, career information, research opportunities and more.

Committee on Minority Affairs

Minority Affairs

In 1993 the American Chemical Society Board of Directors and the Council created a new Joint Board-Council committee on minority activities in the chemical sciences. The responsibilities for this Committee are as follows:

- Oversee American Chemical Society programs devoted or related to minority issues
- Develop a long-range plan to ensure increased participation of minority chemical profession and in the Society at all levels
- Study and make recommendations on the current status of minorities in the ACS and in the chemical sciences.
- Promote and recognize the professional accomplishments of minorities in the Chemical sciences and in ACS.
- Increase the interest of minority chemical professionals in the work of the Society.

The following ACS members are part of this Committee:

Dr. Willie E. May, Chairman
Dr. James W. Mitchell
Mr. Vanandah Burton
Dr. Kim R. Dunbar
Dr. Joseph N. Gayles, Jr.
Dr. Carlos G. Gutierrez
Dr. W. Christopher Hollinsed
Dr. Celia L. Marshak
Dr. Alison P. William
Dr. Lewis E. Allen, Committee Associate
Dr. David M. Collard, Committee Associate
Dr. David E. Bergbreiter, Committee Associate
Mr. Eric T. Crumpler, Committee Associate
Dr. Milagros Delgado, Committee Associate
Dr. Frank Gomez, Committee Associate
Dr. Felicia B. Graves, Committee Associate
Dr. Nancy B. Jackson, Committee Associate
Ms. Zaida C. Morales-Martinez
Ms. Mamie W. Moy
Dr. Thomas M. Potts
Dr. James P. Shoffner
Dr. Edward Walton
Dr. Isiah M. Warner
Dr. Herbert B. Silber, Committee Associate
Ms. Belinda K. Taylor, Committee Associate
Dr. Evelyn P. Jackson, Committee Associate
Ms. Jane E. Brant Johnson, Committee Associate
Dr. Robert L. Lichter, Committee Associate
Dr. Yorke E. Rhodes, Committee Associate
Dr. Victor Vandel, Committee Associate
Dr. S. Allen Heininger, Consultant
Ms. Yvonne D. Curry, Staff Liaison

About the Minority Affairs Program

Minority Affairs

"Increasing Minority Participation in the Chemical Sciences"

- Why a Minority Affairs Program ?
- Programs Offered by the Minority Affairs Department
  - ACS Scholars Program
  - Mentorship
  - Summer Internship
  - Programs at National and Regional Meetings
  - On-Line Clearing House
- ACS Vision Statement for Minority Affairs
- For additional information. . .

Why a Minority Affairs Program?

Former ACS President S. Allen Heininger cited three reasons for a minority affairs program. The first of which is that minorities are the fastest growing part of the U.S. population, and that in the next century, they will become the majority possessing both the clout and talent to contribute significantly to the nation's future. Secondly, minorities are underrepresented in the sciences. And thirdly, the ACS, the world's largest scientific society has a responsibility to reach out and invite underserved minorities to participate in the excitement and opportunities that literacy in the sciences offer.

MISSION OF THE MINORITY AFFAIRS PROGRAM

The mission of the minority affairs program is to conceive, develop, coordinate, and implement programs that are designed to encourage and support minority involvement in the chemical sciences.

BACKGROUND

In June 1994, The American Chemical Society Board of Directors met in a retreat session with leaders from the minority community to identify specific new ACS activities to increase the level of minority involvement in the chemical sciences. Twenty-five recommendations from the retreat are currently under consideration or in implementation as a result of this historic meeting. The responsibility of implementing the Board Retreat recommendations has been assigned to the newly created Minority Affairs Program.

Return to the top of the page

Programs

ACS Scholars Program

In December 1994, the ACS Board of Directors voted to develop a $5 million dollar scholarship program--one million per year for the next five years--with the goal of awarding minority students financial assistance as they pursue degrees in the chemical sciences. The competition is open to students who meet the following qualifications:

- African-American, Hispanic, American Indian and Alaskan Native
- Citizens or permanent residents of the United States
- High school seniors, or college freshman; sophomores or juniors intending to or already majoring in chemistry, biochemistry or chemical engineering and planning careers in a chemically related field
- High school seniors or two-year college freshman intending to or already majoring in chemical technology and planning a career in this field
- Full-time attendance at an accredited college, community college or university
- Students with demonstrated high achievement in chemistry or science
- Evidence of financial need for scholarship aid according to Career Opportunities Through Education's (COTE) PAPA form's guidelines.

The eligibility period for application submission begins in the late fall each year. The deadline for submission is the last day of February in the following year.

ACS Scholarship Recipients

See *Chemical & Engineering News* October 25, 1996; or call 1-800-227-1188, 1-800-227-5558 (Press 9, Press 3, Press 5); or e-mail to scholars@erol.com

Mentorship Program

Students who are award recipients are encouraged to work with local mentors. Currently, the Society is initiating strong efforts to identify mentors in those communities where Scholars are enrolled in school. This includes efforts to identify faculty members as well as volunteer members of the Society to support the Scholars in completing their academic programs successfully.

The mentoring program is designed to assist students during their academic career. Assistance may be in the form of tutorial services, career counseling, and academic coaching. Although the program is specifically designed for the ACS Scholars, the Society hopes to serve any student who is in need of mentoring support. Cross-cultural mentoring workshops for those who desire to become mentors are held at ACS national meetings and selected regional meetings.

Summer Internship Program

The ACS offers a 10 week summer internship program for minority students who are interested in pursuing careers in the chemical sciences. During the course of the program, students are exposed to non-traditional work experiences in the chemical workplace. The interns work very closely with editors, writers, program managers, and software developers. They also attend workshops on careers in chemistry,

preparation for graduate school and community outreach.

The third summer of the internship in spent in a Washington metropolitan area laboratory facility where students are exposed to a traditional workplace.

Students who qualify for this program participate through a nationwide organization, INROADS, Inc.

Programs at National Meetings

The ACS Committee on Minority Affairs sponsor programs at national meetings to encourage members to participate in ACS activities and committees. At both the spring and fall meeting, the Committee hosts a social hour which provides an opportunity for networking with colleagues from industry and academe.

A special workshop for minority members is offered at the spring meeting. This is an informational forum presented by various ACS operating units, detailing how these units work and their benefit to the member and the scientific community.

Programs at Regional Meetings

In 1996, the Office of Minority Affairs instituted a series of symposia at ACS Regional Meetings. These are half-day programs within the respective regions focusing on on-going minority related programs in the region. There are three objectives for these symposia:

- They offer a directory of minority activities at colleges, universities, local sections and other organizations
- They foster ideas for other minority related programs and activities.
- They encourage minority programming in local sections.

A schedule of upcoming symposia can be obtained from the Office of Minority Affairs.

Minority Affairs Network of Resource Information

The goal of the on-line resource information is to provide a comprehensive directory of minority programs and/or activities in science. This information includes ACS activities, other organization's programs (summer camps, career services, mentor programs, research opportunities), upcoming meetings and financial aid sources. Many who access this page find it an invaluable reference source.

Return to the top of the page

ACS Vision Statement for Minority Affairs

Demographic experts predict that there will be an increased number of minority entrants into the workplace in the 21st century. This projection presents a significant challenge to the chemistry profession and its practitioners. Scientific disciplines, including chemistry, have seen relatively few minority youth joining their ranks. As the makeup of entrants into the workplace shifts toward increased numbers of minorities, the chemistry profession will not be able to ignore the possible consequences of failure to address the workplace changes. The vitality and strength

of chemistry and the American Chemical Society will rest on the Society's ability to work toward effective solutions. Those solutions may come about through independent action or by working in concert with other interested groups.

When sociological and economic factors bring about change, dynamic organizations usually re-examine their strategic thrusts for consistency and relevancy. The American Chemical Society, the largest organization representing a single science, is in a unique position to use its prestige, its knowledge, and its resources to significantly alter the course of events in the chemical workplace.

The principles embodied in the American Chemical Society Charter serve as its guide in the development of programs and activities. These principles are directed toward fostering public welfare and education, adding to the development of our country's industries, and adding to the material prosperity and happiness of our people. The charter presents the Society with both an obligation and a social responsibility to act.

We therefore:

1. Seek to improve science literacy among minorities.
2. Seek to encourage minorities to pursue education in science.
3. Seek to help chemistry-trained minority individuals in the professional and technical development.
4. Seek to involve minorities in the program activities and governing bodies of the American Chemical Society.
5. Seek to diversify the Society's staff to enable the Society to serve as a model for the chemical workplace.

About the ACS Scholars Program

The American Chemical Society sponsors a Scholars Program for qualified applicants who want to enter the field of chemistry, biochemistry, or chemical engineering, and students seeking a two-year degree in chemical technology. The program is designed to encourage African-American, Hispanic, American Indian, and Alaskan Native students to pursue undergraduate college degrees and careers in the chemical sciences. The goal of the scholarship program is to aid in building an awareness of the value and the rewards associated with careers in science and to assist students in acquiring the skills and credentials needed for success in these areas.

The scholarships are awarded on the basis of merit and financial need to high school seniors planning a science preparatory program of study, and college students who are currently freshmen, sophomores, or juniors who are committed to the study of chemistry, biochemistry, or chemical engineering and are interested in pursuing careers in one of these fields. Students interested in two-year chemical technology programs and careers in this field are also eligible. Students must have strong academic records and show an interest in and potential for careers in the chemical sciences. Students intending to pursue careers in medicine are not eligible for scholarship awards.

The amount of each individual award will depend upon the availability of funding, the number of scholarships awarded, the student's educational level when the scholarship is awarded, and evidence of financial need. Scholarships up to a maximum of $2,500 will be given for the freshman and sophomore years; students who win scholarships for their junior and senior years will receive up to a maximum of $5,000 a year. The awards are for one year only.

Eligibility

BEST COPY AVAILABLE

To be considered a candidate, students should review the following criteria:

- African-American, Hispanic, American Indian, or Alaskan Native heritage;
- Citizens or permanent residents of the United States;
- High school seniors, or college freshmen, sophomores or juniors intending to or already majoring in chemistry, biochemistry or chemical engineering and planning careers in a chemically-related field;
- High school seniors or two-year college freshmen intending to or already majoring in chemical technology and planning a career in this field;
- Have an average of at least "B" or the equivalent;
- Demonstrate financial need according to the Projected Annual Parent Aid (PAPA) form.

(return to top)

How to Apply

Application forms may be obtained from the American Chemical Society Scholars Program by telephoning: 1-888-ACS-1188 or by downloading the application forms (see "Downloading the Application Forms," below). Interested students should complete the application forms and return them as the instructions indicate. In completing the application forms, applicants are urged to answer each question as completely as possible. Candidates are asked to list activities and events that are relevant to their educational achievement, and to consider carefully personal attributes that will enhance evaluation by the Selection Committee. All application materials are confidential and will be reviewed only by Career Opportunities through Education staff and representatives of the American Chemical Society associated with the program. If an application package is incomplete, the candidate will not receive consideration for a scholarship.

Downloading the Application Forms

You have two choices in obtaining the three forms:

1. Download the forms in PDF format. PDF documents can be printed from many different computer systems, but require you to have Adobe Acrobat Reader 2.1, which is freely available from Adobe Systems Inc. Use this procedure to obtain the highest quality forms for your application.
2. Download the forms in Microsoft Word format. These forms can be read by Microsoft Word 5.1 or greater by Macintosh or Windows computers. Use this procedure if you do not have the Adobe Acrobat Reader or do not wish to install it.

Downloading the forms in Adobe Acrobat Reader (PDF) format

To view and print the forms in PDF format, applicants will need Adobe Acrobat Reader 2.1, which is freely available from Adobe Systems, Inc. **If you do not have Adobe Acrobat Reader 2.1**, please visit Adobe's site to download the appropriate reader software for your computer, and carefully read the system requirements for your computer and follow the installation instructions provided by Adobe.

- Adobe Acrobat Reader 2.1, Windows computers
- Adobe Acrobat Reader 2.1, Macintosh computers

After you have installed Adobe Acrobat Reader 2.1, you can download and print the

forms.

The three forms needed are:

- Application form (applicat.pdf, 124K)
- Financial Disclosure (PAPA) form (finance.pdf, 92K)
- ACS Overview of the ACS Scholars Program (overview.pdf, 120 K)

Downloading the forms in Microsoft Word (version 5.1 or higher) format

To view and print the forms in Microsoft Word format, you will need Microsoft Word 5.1 or higher (or any word processing program that can read the Microsoft Word file format). The files provided here are readable by both Macintosh and Windows versions of Microsoft Word.

The three forms needed are:

- Application form (applicat.doc, 21K)
- Financial Disclosure (PAPA) form (finance.doc, 5K)
- ACS Overview of the ACS Scholars Program (overview.doc, 119K)

After downloading the three forms, use the Adobe Acrobat Reader or Microsoft Word (or any other word processing software programs that can read Microsoft Word files) to print them out. For the Microsoft Word documents, make sure that the printer margins are adjusted to 0.75 inches to ensure that the forms print with the correct number of pages: Application (4 pages), Financial Disclosure (1 page), and Overview (1 page).

Applicants are responsible for ensuring that all application materials: the application form, the PAPA form, two recommendations, copies of official transcripts, and any other pertinent data are submitted to:

ACS Scholars Program
Career Opportunities through Education (Cote)
P. O. Box 3750
Cherry Hill, NJ 08034-0578

by the Postmark Deadline Date. **Our next application period will begin on or about November 1, 1997 for the 1998-99 school year.**

For any questions during the application period, prior to submitting the application materials, please call **Toll Free** 1-888-ACS-1188, or via e-mail to scholars@erols.com. All other times call **Toll Free** 1-800-227-5558, then press 9, press 3, press 5.

(return to top)

Selecting Scholarship Recipients

The American Chemical Society's Selection Committee, made up of representatives from the minority communities the scholarship is intended to serve, reads all applications to determine those who are the best overall applicants to receive scholarships. The highest rated students will be selected as scholarship recipients.

All candidates will be notified of their status in May. Scholarships funds will be sent

to the homes of the Scholars. Checks will be issued twice yearly in July and January and will be made payable to the Scholars and the schools.

Supporting Mentoring Programs

To help students be successful in the chemical sciences, the Society is initiating strong efforts to identify mentors in the areas where Scholars are enrolled in school. For information on mentoring, please contact the Administrator, Dorothy Rodmann at dpr94@acs.org.

(return to top)

ACS Scholars Discussion Forum

All students and mentors who are officially registered in the ACS Scholars program may post messages for other mentors and students to respond to using this forum.

You may also take part in the discussion if you are not enrolled in the program but have questions or comments for the scholars. Please be sure you post messages under the forum for the region in which you live or go to school.

Organizations with Minority Affairs Programs in Science

Return to the Minority Affairs Resources

- **A - M**
- N - Z Organizations

American Indian Science and Engineering Society (AISES)

Focus: Private non-profit organization which nurtures the building of community by bridging science and technology with traditional Native values. Through its education programs, AISES provides opportunities for American Indians and Alaska Natives to pursue studies in science, engineering, business and other academic arenas.

Programs available: Publications, workshops, summer camps, summer programs, scholarships, student chapters, on-line database, workshops and science fairs, annual meeting

For more information contact:

American Indian Science and Engineering Society
(AISES)
5661 Airport Blvd
Boulder, CO 80301-2339
303-939-0023
303-939-8150 (fax)

Return to the top of the page

American Association for the Advancement of Science

Focus: Physical sciences, life sciences, engineering, mathematics, chemistry

Programs available: Workshops, internship programs, scholarships, post-doctoral fellowships, volunteer programs, family activities, public awareness activities, classroom materials, career information, programs with/for scientists, science TV or radio programming

For more information contact:

American Association for the Advancement of Science
c/o Yolanda George, (202-326-6670)
Chris McPhaul, (202-326-6600)
Edward Gonzalez, (202-326-6673)
1200 New York Avenue, NW
Washington, D. C. 20005

Return to the top of the page

American Institute of Chemical Engineers (AIChE)

Focus:Engineering

Mentoring Opportunities, scholarships

For more information please contact:

American Institute of Chemical Engineers
845 East 46th Street
New York, NY 10017
212-705-7478
212-752-3294 (fax)

Return to the top of the page

American River College MESA/CCCP

Focus:Math/science based fields

Programs available: Workshops, seminars, summer camps, mentor programs, volunteer programs, bridge programs, scholarships, summer programs, family activities

For more information contact:

American River College MESA/CCCP
Paul Andre, Director
4700 College Oak Drive
Sacramento, CA 95841
